

CE in the Biotechnology & Pharmaceutical Industries 2024

KNOWLEDGE SHARING AND CAPACITY BUILDING

- Peak ID is *no longer a hindrance*.
- *We are SMEs, we control the tools*: Sample prep, Separation matrix, Sample loading → Electropherogram integration
- The Symposium addressed questions including:
 - Will agarose be the *wave of the future for CE-SDS baseline issues*?
 - Can higher capillary temperatures *melt away other pesky peaks*?

CE PHARM 2024 BY THE NUMBERS

First-Time Attendees

53

Regulators Participated
