

CGTP SUMMIT 2024

VIRTUAL

KNOWLEDGE SHARING AND CAPACITY BUILDING

- *Multiple/orthogonal methods are needed* for release, stability, characterization, and comparability.
- We are *close to having a standard set of CQAs* - an essential step in the journey to AAV products being “well-characterized”.
- Consider product volume requirements, product profile, and available technologies *when setting manufacturing strategy*.
- It is *important to have a CPV (continuous process verification) plan* to continue to collect data post PPQ/approval.

CGTP Summit 2024 **BY THE NUMBERS**

First-Time Attendees

21

Regulators Participated

17

Companies Represented

39

Countries Collaborated
